Application number: 10/823,847

Dear Nguyen N. Hanh:

Applicant Name: Chen, Yue-Chung

U.S. Application number: 10/823,847

Title of invention: Mike 8001 induction motor design

Email: mikeaaa56@hotmail.com Tel: 908-917-8188 (CE)

I receive your letter of Aug 19, 2005.

In order to distinguish my invention from Shoykhet's, I modified my claim one which is enclosed with this mail.

About claim 2, I will cancel it because it gets somewhat similar to Shervington et al design. Even there is a cut in each stator pole in my design, it still will be a hard decision to make for patent examiner.

A copy of office action summary is enclosed.

Thank you very much for all the help I get from you.

Chen, Yue-Chung

Chen, Yue-chung
